

# Design Mockups

Login

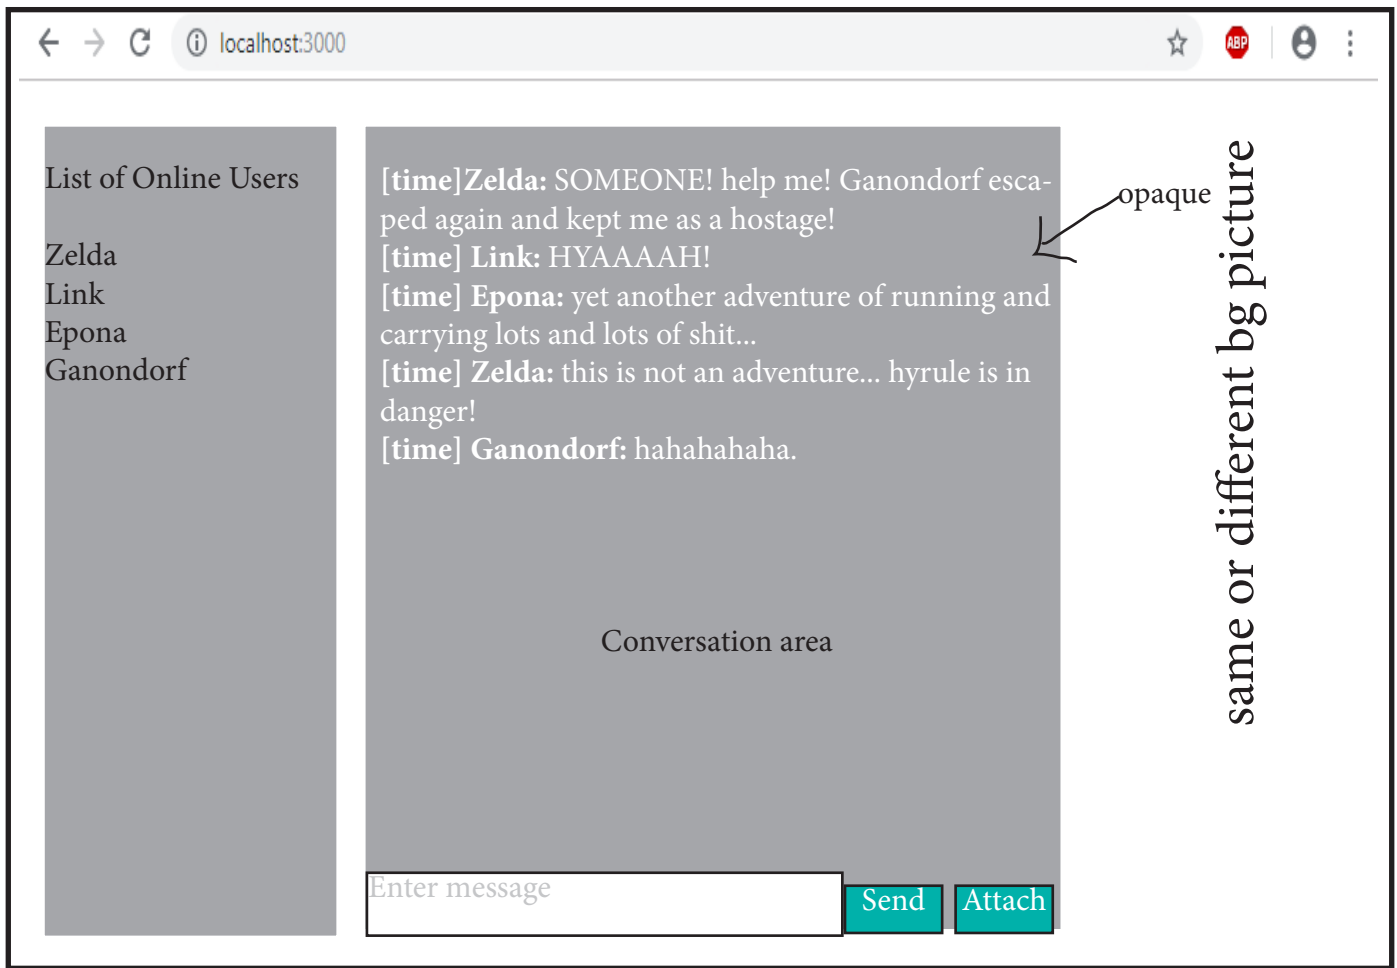

Other Idea:

- Login as popup („This website requires a username“) with textfield and submit-button

implementation?

- extra html for login
- login in `<div>` container that is shown at start and hidden in the chat surface

# Chatarea

(Other) Ideas:

- online users not always shown, just over /list
- list of online users shown above chat area and over whole width of page
- Send button: paper plane
- Attachment button: paper-clip

Message:

- timestamp + name + content
- notification if anyone is online in chat? as a message + time/date
- sound notification?
- /whisper and /list in different colors (pink and green ?)
